**Subject: - Regarding Power Cut to Industries in UP.**

Sir,

We have received reports from our various chapters in UP that electrical supply to industries is not made available since 10:00 AM today. Industries have also been informed that compulsory power cut will be applicable to industries from 10.00 AM to 04:00 PM everyday starting from today. We have also confirmed from the System Control department of UPPCL and they have informed us that the power cut is being applied due to shortage of power.

If it is so, the industrial activities in the State of Uttar Pradesh will become standstill causing heavy losses to the industrial units as well as Govt. exchequer.

You are aware that all the industries essentially operates during the day time therefore the impact of this power cut will certainly retard the industrial growth in the state.

We therefore request you to lift the power cut for industries with immediate effect in the overall interest of industries as well as Govt. revenue.

Looking forward for a favourable response

Thanking You,

Yours truly,

Anil Gupta  
President
