Sub :- Proposal for Public Private Partnership for providing ESI Treatment facilities to industrial workres.

Sir,

We are happy to inform you that keeping in view the lack of Medical Treatment facilities available to Industrial workers through ESI hospitals/ Dispencaries at numbers of places, the industrialists (IIA Members) are comming forward to participate in solving this problem by setting up private hospitals under public private partnership model. The facilities are proposed to be provided through a seperate non profitable entity constituted under the Sociaties Act.

One such proposal is made by Mirza Foundation for the Industrial workers in Unnao, Uttar Pradesh where proper ESI facilities are not available. The detailed letter and proposal addressed to you is **enclosed herewith for your kind parusal and consideration.**

If this proposal is accepted it will result in a win-win situation for all the stake holders i.e. the Government, the Industrial workers and the Employers.

We therefore, request you to kindly accept the porposal and approve it for implimentation as a pilot/experimental project to start with. If is so desire, IIA will be happy to meet you alongwith the promoter of Mirza Foundation to discuss/explain the proposal as and when it is convenient to you.

Looking forward for a favourable responce.

Thanking you,

Yours faithfully,

D.S. Verma
Executive Director
