

**Your views on the MSME Manufacturing Sector problems & solutions  
invited for publication in IIA news.**

(Last date for receipt of your views- 21<sup>st</sup> may 2012)

IIA Members,

Dear All,

It is a matter of grave concern that the share of the manufacturing sector in the country's GDP has remained stagnant at 15% (excluding mining) for the last 30 years. MSME sector is the worst hit and the general opinion is that there is a negative growth in this sector. **Many MSME entrepreneurs are diversifying into trade or real estate business from manufacturing sector.**

Keeping in view the seriousness of the matter, President IIA have decided to focus on the "MSME Manufacturing Sector" in June 2012 issue of the IIA News Magazine.

**In order to get to know the real causes of the problem and to suggest remedial actions to the Government, We would request for your comments on the problems & issues faced in your own manufacturing venture and along with suggestions for improving the situation. The comments will be published in June 12 issue of IIA news with due acknowledgment & photographs if received by 21<sup>st</sup> May 12.**

Please note that the quality and contents of IIA News magazine depends upon your contributions / feedback.

We therefore look forward to hearing from you in the overall interest of the MSME manufacturing sector and in your own interest.

Thank you

Manish Goel

General Secretary
